The University believes that, in investing its funds, regard must be made to social, environmental and governance issues. In line with its general strategic direction, the University believes that its investments should mirror its own desire to be sustainable and promote sustainability and that a preference will be given to positive screening to proactively bring about sustainable positive change in the world.

In making investment decisions the University expects its appointed investment practices;

- Protection of the global environment, its climate and its biodiversity including the reduction and future elimination of fossil fuel exploration and production;
- Promotion of community investment;
- Promotion of international co-operation and an end to international con;
